

PL/19/1020/RM | Installation of a 20m high monopole including 2nos. dishes and 2nos. cabinets. | Telecommunication Site EE 78248 Entrance To Miller and Carter Bath Road Taplow, Maidenhead Buckinghamshire SL6 0AJ

Taplow Parish Council raises objection to this application.

The proposed mast is an unsightly and intrusive addition of road furniture on the corner of the rural Approach Road.

It appears that a major justification for the mast is to improve mobile reception on the railway line. As such it would be much better sited on the railway embankment adjacent to its proposed siting. Here it would be much less intrusive, could be of lower height and would merge into the existing array of gantries.
