Attn: Vicki Burdett

Ms Burdett

We note that application PL/20/0746/Fa has been withdrawn at Challen's Chick Farm

However, in earlier correspondence on this application you were advised (with photographs) that a series of buildings were being constructed on the site that would appear to require planning permission which has not been applied for. A site visit was requested to clarify any possible breaches of planning laws.

Has such a visit been made? If not when will it take place?

A repeat of the situation at "Little Karoo Farm" (applications PL/19/3556/AGN and correspondence) is highly undesirable.

The appeal on the earlier refused application for a Quail barn indicates that the owners have a clear intention of moving a grazing meadow in the Green Belt to a full scale commercial poultry business.

To ignore significant building activity on this site in these circumstances is not acceptable.

Please advise

Kind regards

Roger Worthington
